

Certificate on the successful participation in a web-assisted learning mobility abroad

The participant completed an internship abroad within the project webLab. Within this project context the student was using a weblog to document their activities. The internship is based on a learning agreement concluded before the beginning of the stay abroad. It contains both curricular learning aims as well as individually set learning objectives. By this the student managed to shape their internship abroad in a self-regulated way in order to achieve the set learning goals.

This webLab Certificate is awarded to:

Surname(s), First name(s)		
Adresse (house numer, street name, postcode, city, country)
